

ABOUT WORKSHOP

After the successful completion of first 3 days workshop on software for Economics research held in September 2012, a second 3 days workshop is planned to be held at School of Economics, Quaid-i-Azam University Islamabad in first week of July, 2013. Various experts in the field of Econometrics will train students and researchers how to use software for data analysis in Economics, Finance and Management Sciences. The use of these software is increasing day by day in qualitative as well as in quantitative research. So a better understanding to these software will enable researchers to conduct a research of good quality.

WORKSHOP OBJECTIVES

Main objectives of organizing the 3 Days Workshop on Software for Economics Research are as under:

- To introduce statistical tools available in Econometrics software.
- To introduce software that can help students and researchers for conducting research.

WHO SHOULD ATTEND

The target participants of the workshop are the faculty members, PhD and MPhil students, and researchers at various institutes, who have to use software to teach or to conduct research at various levels. PhD and MPhil students are highly encouraged to attend the workshop for better understanding of the software.
